HEALTH OCCUPATIONS I ad II

Health Occupations 1 provides students with transferable skills to help meet the needs of the health care industry. First year students explore occupations in health care, study anatomy, physiology and medical terminology and learn with a hands-on approach. Entry-level medical skills are covered. During second semester, Red Cross First Aid and CPR certifications are offered. A two-week study of forensic science is also covered. HEALTH OCCUPATIONS 2 Health Occupations 2 is a year long course. Students will learn about teamwork, communication, safety, legal issues, employability and information technology as it relates to the field of Health Care. Hands-on activities help students to learn medical skills and renew CPR certification. Students that meet the necessary requirements will be provided with the opportunity to job-shadow multiple health care professionals at various settings in our community. This course will help students prepare for entry-level positions in health care and explores additional requirements needed for more advanced careers in the medical field.

Auto Technician

Are you looking for a class where you can get your hands dirty? How about a class where you can turn your love of cars into a rewarding career? Or are you just looking for a class that will help you save hundreds of dollars on auto repairs by learning to do them yourself? If you answered yes to any of these questions, then Auto Technology 1 is right for you. In Auto 1 you will learn the basics of automotive care. Starting with shop safety, tool usage, and general service facility operations, you will learn to understand the duties of an "Auto Tech". As you progress you will study the components and functions of three major automotive systems: * Brakes * Steering & Suspension * Internal Combustion Engine AUTOMOTIVE TECHNOLOGY 2 This advanced automotive course is geared toward giving students the skills they will need to gain entry-level employment in the automotive service industry or 100 level college courses. Course work focuses on automotive electronics, electrical systems and engine drivability, course safety, maintenance, tool usage, heavy equipment operations and all areas of automotive repair and repair facility operations. Automotive Technology 2 offers automotive theory with "hands-on" experience. Skill levels for testing and ASE / STATE (Automotive Service Excellence) certification can be achieved upon completion of Automotive Technology 2. TIA certification can be earned in class. This program is certified by the following organizations: TIA (Tire Industry Association) NATEF (National

Automotive Technicians Education Foundation) Certified Program. AYES (Automotive Youth Education System) Certified Program.

BUSINESS MANAGEMENT & TECHNOLOGY

This business course is designed to prepare students for employment in a wide range of business settings. Students will learn “MANAGEMENT” skills by creating their own fictitious business. Students will also learn and expand their knowledge with Microsoft Word, PowerPoint, Excel and Access. Other projects include employability skills, business etiquette skills and business ethics. With completion of this 1-year class, students will have the opportunity to take the Microsoft Office Specialist (MOS) exam (at own expense).
